

Serious Games for Veterinary Medicine

(Wahlpflichtveranstaltung)

Interested in creating your own virtual veterinary clinic?

The Center for Digital Systems (CeDiS) is offering a seminar on the development of serious games for Veterinary Medicine, titled *"Practicing Veterinary Research within Serious Games"*. During the seminar, **you will work in groups (3-5 students/group) on the following tasks:**

- Select a research topic to replicate within a virtual veterinary clinic
- Gather relevant information, videos and images from clinics, laboratories and lectures (visits to clinics will be arranged).
- Design, model and animate 3D objects
- Learn basic 3D programming (based on your progress)
- Present your 3D projects

Interested in participation or want more information?

Place: Center for Digital Systems (CeDiS), Garystr. 39, 14195
(CeDiS Schulungsraum)

Time: Fr 14:30-16:00

First Class: 20.04.2018
